

## CARESTREAM VITA FLEX CR VITA FLEX CR plate reader

### **Product description:**

#### **Compact, flexible and affordable computed radiography**

Vita Flex CR Systems are designed for small-to-midsize hospitals, clinics and practices that need compact digital solutions at an affordable price. With three options for throughput speeds, these systems offer in-house, high-quality digital imaging to fit your workflow.

- Smaller size and weight
- Multiple throughputs to choose from (30/45/60 PPH)
- Ability to be positioned for horizontal or vertical feeds
- Options include a Dental Panoramic Kit for dental imaging and Long-length Imaging System for high-quality long-bone capture.

#### **An Easy Upgrade From Film to Digital.**

Meet the CARESTREAM Vita Flex CR System – designed specifically for facilities like yours. It delivers high-quality digital images to speed workflow and improve patient care, and offers a range of throughput rates to match your needs.

#### **Flexfit**

Position Vita Flex horizontally or vertically – whichever fits your space the best.

#### **Flexfix**

If the Vita Flex needs service, you can generally fix it yourself with easy-to-install field replaceable units – no tools or

technical skill needed.

## **The Power of Image Suite Software**

Image Suite is powered by Eclipse to provide high-quality images. This robust software offers an easy-to-use, touch-friendly interface custom designed for veterinary use. Our advanced "mini-PACS" module offers a complete solution for scheduling, image capture, reading and reporting tools as well as archiving.

## **Features and Specifications**

### **High-Quality Images**

- Upgrade to superb digital images.
- Utilize custom measurement tools for improved diagnostic confidence
- Utilize powerful analysis tools in the software to improve diagnostics.
- Fine-tune image processing using simple slide bars to adjust brightness, contrast or detail from the acquisition screen.

### **Affordable**

- Go digital without breaking the bank.
- Low operating and maintenance costs save money over time.
- Save money by eliminating consumables associated with film.

### **Speed and Workflow Improvements**

- Choose the throughput rate that best suits your needs. (30, 45 or 60 PPH).
- Significantly improve your workflow and speed exam time over film.
- Prior image review including techniques and exposure history by using query/retrieve from PACS.

### **Versatile**

- Select from multiple cassette sizes.
- Handle all major exam types with confidence.
- Dental Panoramic Kit option allows fast and accurate dental imaging.
- Long-length Imaging System enables flexible, high-quality long-bone image capture.
