

GLIDEBOARD "TETRAGLIDE"

Transfer of patient from bed into the wheelchair or WC, wheelchair into the motorcar etc.

Product description:

The "**Tetraglide Glideboard**" was developed specially for tetraplegics but is also increasingly popular because of its new "Fishtail". It is characterised by the ease with which the patient can be sat upon, by the manner in which it can be inserted from both sides and is utilised for transfer bed-chair-WC, etc.

This board simplifies the transfer to the patient by the nursing personnel from the centre of the bed into the wheelchair or WC/chair (even motorcar). It is manufactured of absolutely unbreakable material (HDPE), is acid resistant, easy to clean and to disinfect. A specially developed anti-slide adhesive (blue) ensures the positioning on the bed, wheelchair, etc.

Size : 63 x 23 cm / 25 x 9 inch
