

MEDIUM/HIGH ACTIVITY VIAL SHIELD
Medium/High ACTIVITY VIAL SHIELD with Extra Thick 20 mm lead glass

Product description:

Use:

For safe storage of vials and handling in connection with filling syringes.

Function:

Developed to combine user-friendly functionality with high safety.

Advantages:

Features extra thick, 20 mm lead glass. Protects the user against radiation when working with syringes and vials. The transparent glass also provides 360-degree visibility. The top is close-fitting thanks to the use of magnets, and is opened with a light twist. Tungsten is incorporated in the top and bottom to increase safety and cut down on weight.

Close-fitting Magnetic Top

The top is close-fitting thanks to the use of magnets, and is opened with a light twist.

Specifications:

Glass thickness 19.5 mm, equivalent to 6.4 mm of lead

External dimensions: 79x95 mm. Internal dimensions: 31x60 mm

Weight: 1,7 kg

Fits 5-30 ml vials
