

MRI 60°/120° PRISM GLASSES DELUXE Prism Glasses for MRI

Product description:

Prism glasses „Deluxe“ works with plastic frame or elastic strap to remain in place while maintaining ultimate comfort

Elastic strap can be sized for children or adults to maintain a perfect fit

Highly effective in increasing throughput by reducing MRI scan claustrophobia

Patients may be scanned Head-First or Feet-First with an identical view outside of the MRI Magnet

Prisms do not reverse the image so it is possible to see a mural, calming poster or projection screen TV, with the patient in the MRI magnet either Head-First or Feet-First

No metal parts to interfere with patient imaging scans

May be used with all field strengths for MRI and fMRI scanning

Glasses may be worn in all types of diagnostic imaging scans

MRI, fMRI, nuclear medicine, CT, PET and digital x-ray imaging devices

Slim design enables glasses to be worn inside all MRI systems, regardless of manufacturer, including all types of MRI head coils

Glasses may be easily cleaned to be hygienically worn by multiple patients

Comes with a customized box to protect your glasses
