

TREATMENT LUMINAIRE - TRIANGO 130 TRIANGO 130 - A new star in medical lighting

Product description:

This flagship from the renowned Derungs company sets new standards in terms of performance, quality and design for treatment and minor surgery lights. Thanks to its globally unique diamond optics and outstanding light intensity of 130,000 lux, the TRIANGO 130 is an indispensable solution for concentrated work during surgical procedures. Its extremely homogeneous and uniform light creates the ideal working environment.

More light means more possibilities and quality down to the smallest detail

The TRIANGO 130 reflects our understanding of quality and sustainability in that all load-bearing components and the housing are made of high-quality, robust metal. The unique diamond optics and the sealing concept are protected by resistant Grilamid glass.

Maximum brightness

130,000 lux at one meter - this impressive light level ensures optimum visibility and enables maximum precision for minor surgery and medical treatments.

Cost-efficient

You don't need expensive alternatives to achieve the desired brightness. The TRIANGO 130 fully meets your requirements.

Focusable

Thanks to their focusability, you can adjust the light as required and direct it specifically to the area where it is needed. This flexibility is crucial for efficient medical work.

4-step dimming

Whether you need intense illumination for surgery or softer lighting for diagnostic purposes, the TRIANGO 130 offers you the adaptability you need.

Total

The TRIANGO 130 is the ideal choice for any medical facility looking for a high-quality and cost-effective lighting solution for minor operations and treatments.

Unique arm system:

Position-accurate alignment and large radius of action

Technical data	Value
Light output	130 000 Lux @ 1.0 m
Colour temperature	3 700 K / 4 300 K / 4 700 K
Colour rendering	Ra > 96
Illumination field	Ø16 / 20 / 25 cm
Equipment	1 x LED-modul
Illumination depth	80 cm
Operation	Membrane keypad
Standards	EN 60601-1, EN 60601-2-41

Lampe de soin: Ceiling, Wall mount, Mobile version
