

**MRI MODEL FOR CHILDREN — PLAYFUL EXPLANATION**  
**Play set to help children understand MRI exams in a fun way.**

**Product description:**

The **miniature educational MRI** is designed to **playfully explain** the **MRI** procedure to children. It helps **reduce their anxiety** and prepares them for a calmer, more confident examination experience.

The **playset** includes two figures, a **realistic MRI scanner** with a **movable examination table** (4 cm movement) and a **fixation belt** to simulate the procedure as accurately as possible.
