

OPERATING CARBON TABLE
Radiolucent operating table, compatible with C-arm use

Product description:

Radiolucent operating table, compatible with C-arm use

Designed for modern operating rooms, the **Famed FLARE operating table** features a fully carbon fiber tabletop that is entirely radiolucent. It ensures optimal use with C-arms, allowing excellent X-ray transparency across the entire surface.

Its ergonomic construction provides precise patient positioning, maximum stability, and easy cleaning for all image-guided procedures.

- Fully radiolucent carbon fiber tabletop
- Compatible with C-arm imaging
- Lightweight and easy-to-clean ergonomic design
- Motorized movements for precise adjustments
- Stable and silent structure
