

**LEGUEU-TYPE FINGER COTS**  
**Sterile latex finger cots type Legueu for 1 or 2 fingers**

**Product description:**

**Medical polyethylene finger cots - 1 or 2 fingers**

**Legueu finger cots** are single-use devices designed for **medical applications**, especially during **gynecological** or **proctological** examinations. Made from **polyethylene**, they help maintain **optimal hygiene** while preserving the practitioner's **tactile sensitivity**.

These simple and durable protective covers are available in two versions: **1-finger** or **2-finger**. They partially cover the hand and offer **dual protection** against cross-contamination.

Packaging: **pack of 100 units**.

Use: **medically clean**, non-sterile.

Appearance: **opaque**.

Gants stériles: No, Medically clean

Gants - nombre de doigts: 1 finger, 2 fingers
