

MRI OXYGEN CYLINDER WITHOUT INITIAL FILLING

MRI-compatible aluminum oxygen cylinders without initial filling - available in 1.8 L, 5 L and 10 L

Product description:

These aluminum oxygen cylinders are specially designed for use in **MRI environments**. Supplied **without initial filling**, they are not subject to dangerous goods transport regulations. Their lightweight and corrosion-resistant design makes them easy to handle in any medical setting.

Made from brushed aluminum, these cylinders are **acid-resistant**, robust and easy to carry.

Model	Volume	Length	Diameter	Empty weight	Capacity (at 200 bar)
