

SONY UP-971AD HYBRID PRINTER

A4 medical thermal printer - black and white imaging for ultrasound and radiology

Product description:

The **SONY UP-971AD hybrid printer** is an A4 medical thermal printer designed for **fast, high-quality printing of ultrasound and radiological images**. With support for both **analog and digital inputs**, it is compatible with a wide range of medical imaging systems.

Its **compact design** makes it ideal for installation on **medical carts**. **Front-access contrast and brightness controls**, combined with a **backlit LCD panel**, ensure intuitive operation.

Several **print modes** are available and can be selected directly from the front panel. Switching from standard mode to **multi-image printing** is easily done using the dedicated "Multi" button.

The multi-image mode, available when connected via analog video, allows **2, 4 or 6 images to be printed on a single A4 sheet**. A **panoramic printing mode** is also available, enabling extra-wide prints of up to **600 mm in length**.

The **direct thermal printing technology** delivers **high-quality black and white prints** with a **resolution of 325 dpi** and a speed of up to **8 images per second in standard mode**.

Compatible media: UPP-210HD, UPP-210SE.

MEDICAL EQUIPMENT, ACCESSORIES AND CONSUMABLES FOR MEDICAL IMAGING.
