

**PROFOAM WEDGE 45 – 45° POSITIONING WEDGE**  
**Hygienic 45-degree foam positioning wedge for medical imaging**

**Product description:**

The **ProFoam Wedge 45** is an **isosceles 45-degree positioning wedge**, designed to provide stable, precise and comfortable patient positioning during medical imaging examinations.

Made from **dimensionally stable ProFoam foam**, this positioning aid is fully **encased in a welded polyurethane film**, ensuring **optimal hygiene** and excellent resistance to repeated disinfection procedures.

Thanks to its robust, seamless and easy-to-clean design, the ProFoam Wedge 45 is ideally suited for regular use in hospital and clinical environments, including areas with strict infection control requirements.

Available in **firm or soft foam**, it allows the level of support to be adjusted according to the positioning needs and patient comfort.

**Key features:**

- 45-degree isosceles positioning wedge made of ProFoam foam
- Dimensionally stable structure, resistant to deformation
- Welded polyurethane coating for maximum hygiene
- Easy cleaning and disinfection without residue
- Available in firm or soft foam versions
- Suitable for use across multiple imaging modalities

**Available dimensions:**

- 18 × 25 × 12 cm
- 18 × 11 × 5 cm
- 36 × 25 × 12 cm
- 50 × 25 × 12 cm
- 60 × 25 × 12 cm

Dimension: 18 x 25 x 12 cm, 18 x 11 x 5 cm, 36 x 25 x 12 cm, 50 x 25 x 12 cm, 60 x 25 x 12 cm
