

DOUBLE-LAYER WHITE EXAMINATION COUCH ROLLS
Pre-cut pure pulp examination sheets - 36 g/m² (2 × 18 g/m²)

Product description:

The **double-layer white examination couch rolls** are designed to provide **effective protection for examination tables** while ensuring **patient comfort**. Made from **high-quality pure pulp**, they offer a soft feel combined with reliable resistance for daily use in medical environments.

The **double-layer structure** (36 g/m² - 2 × 18 g/m²) provides enhanced strength and reduces the risk of tearing, while maintaining a pleasant skin contact. The **precise pre-cutting** ensures easy handling and a clean, professional appearance.

Thanks to their **standard 50 × 35 cm format**, these examination sheets fit most examination tables and effectively cover the usable surface. The **white colour** reinforces a sense of hygiene, cleanliness and freshness in medical practices, clinics and healthcare facilities.

- **Pure white pulp, soft and resistant**
- **Double layer: 36 g/m² (2 × 18 g/m²)**
- **Pre-cut sheets for practical use**
- **Sheet size: 50 × 35 cm**
- **150 sheets per roll**
- **Total surface per roll: 26.25 m²**

These examination sheets are an essential consumable for maintaining **high hygiene standards** during medical examinations and care procedures, while contributing to **patient well-being**.

Packaging

Supplied in **cartons of 12 rolls**, suitable for healthcare facilities with regular usage.
