

PROFOAM WEDGE 15 - POSITIONING WEDGE
ProFoam positioning wedge - hygienic foam, multiple sizes

Product description:

The **ProFoam Wedge** is a positioning wedge designed to provide **stable, precise and comfortable patient support** during medical imaging examinations and clinical procedures.

Made from a **dimensionally stable foam material**, the wedge is **welded into a durable polyurethane (PU) film**, ensuring **optimal hygiene** and **high resistance to medical disinfectants**.

With its **moderate inclination angles**, the ProFoam Wedge allows accurate positioning of different body areas while maintaining patient comfort. It can be used **inside or outside the imaging field** during radiological procedures.

- **Inclined positioning wedge** (15° or 30° depending on model)
- **Hygienic foam welded in PU film**
- **Easy to clean, residue-free surface**
- **High durability**, even with frequent disinfection
- **Available in hard or soft foam**

Available dimensions:

- 26 × 25 × 7 cm - **15°**
- 18 × 25 × 7 cm - **15°**
- 18 × 23 × 10 cm - **30°**

Dimension: 26 x 25 x 7 cm, 18 x 25 x 7 cm, 18 x 23 x 10 cm
