

CARESTREAM - DRYVIEW DVE
Carestream Laser Imaging Film

Product description:

CARESTREAM DRYVIEW DVE Laser Imaging Film offers distinct advantages that are clear to see. Combining dry laser imaging with slightly bluer, more pleasing blue/black tones, DVE Film improves image visibility in low density and higher density regions alike. It also lasts longer, handles more efficiently and maximizes your film supply inventory. For most imagers a simple software upgrade is all it takes to seamlessly transition to DVE Film while continuing to use your current film supply.
