

## Konica - SD-Q

Dry film

### Product description:

Konica SD-Q dry film doesn't require a WET process.

Konica SD-Q are dry films designed especially for the laser imagers KONICA DRYPRO 873/832.

- Sharp, clear images are assured by optimised control of image tones for MRI, CT, CR and other image modalities. Special new anti-halation technology increase image sharpness.
- Designed for the linear gradations from low through high-density areas, SD-Q delivers excellent diagnostic clarity in the processed image.
- Daylight packaging makes the film easy to handle.

125 sheets per box / 4 boxes per case
