

INFANT RADIATION PROTECTION DIAPER

Patient radiation protection in pediatrics for X-ray images in medical diagnostics with a Pb value of 1.00 mm.

Product description:

- Excellent radiation protection properties
- Quick and easy to put on
- Adjustable size for a comfortable fit
- Complete set for babies, toddlers, and small children: 0-1 year, 1-3 years, 3-6 years

The gonadal diaper protects the entire region of the lower abdomen of your smallest patients, while at the same time providing the necessary comfort. The practicable hook & burr fasteners allow easy and fast putting on and taking off as well as comfortable size adjustment.

Gonad protection diaper complies to DIN EN 61331-1 (IEC 61331-1).
