

STRETCHER MATTRESS

With 4 standard references the **VISCO'CONFORT** mattresses for stretchers.

Product description:

With **4 standard references** the **mattresses for stretchers** can replace any used mattress of your park regardless of the brand and the model: Stryker, Acime Frame, Hill-Rom, Corona, ICare...

All our mattresses for stretchers are:

- Radiolucent
- A removable cover made of polyurethane coated fabric that is slideproof,
- Attached thanks to velcro present on the lower face of the mattress,
- Adapted to patients up to 150 kg (also exist in a version for patients over 150 kg),
- Easily cleaned,
- M1 fire classified.

A bedsores prevention mattress in viscoelastic shape memory foam

Especially designed for emergency, where waiting time can be long, the mattresses for stretchers have been designed thinking of the patients. With a high resilience foam base, they possess a viscoelastic shape memory foam upper layer.

The layer of shape memory foam provides better distribution of contact pressures. It prevents the appearance of bedsores for patients with moderate risk level. The high resilience foam base give a steady support that fits normal and high weight patients.

Filling

Upper layer of viscoelastic shape memory foam on a base of 35kg/m³ high resilience foam

Cover

Polyurethane coated fabric

Fluid-proof seams
