

SONY UPP-110S – A6 THERMAL PAPER

Standard black & white thermal paper for medical imaging

Product description:

The **Sony UPP-110S** is a **standard black and white A6 thermal paper** designed for use with **medical diagnostic printers**. It is particularly suitable for **ultrasound imaging** and is also compatible with **dental** and **microscopic imaging** applications. Thanks to its reliability and cost-effective positioning, it is widely used in **women's health centers** and **obstetrics and gynecology practices**.

This **Type I thermal paper** ensures high-quality thermal printing with clear and consistent image reproduction, supporting accurate medical diagnosis. Each roll measures **110 mm in width** and **20 m in length** (A6 format) and allows up to **215 prints per roll**.

The paper features a **protective coating** that helps preserve printed images over time and ensures clean, precise cutting after each print.
