

SONY UPC-21L - A6 COLOR THERMAL PAPER KIT
Paper and ink ribbon kit for Sony medical color printing

Product description:

The **Sony UPC-21L** is an **A6 color printing kit** designed for medical applications requiring accurate color reproduction, such as **ultrasound** and **endoscopy**. Its format provides images large enough for interpretation while remaining easy to archive in patient records.

This color thermal paper kit is compatible with a wide range of **Sony medical printers**. The use of original Sony consumables is recommended to ensure optimal compatibility and consistent print quality.

Each kit includes **200 sheets of color thermal paper** with dimensions **144 mm × 100 mm** and **4 ink ribbons**, providing a complete and cost-effective solution for healthcare facilities.

Features

- Color printing kit with paper and ink ribbons
- A6 format: 144 mm × 100 mm
- Accurate color reproduction with high clarity
- Suitable for medical image interpretation and archiving
- Contents: 200 sheets and 4 ink ribbons
