

WALL RACK FOR XRAY PROTECTION CLOTHING

Ergonomic support for 1, 2, 3 or 6 aprons with anti-fall nose and independent skirt support

Product description:

Allows the careful storage of 1, 2, 3 or 6 leaded aprons or jackets and skirts without risk of falling or deterioration by any hooks for the skirts. No need to partially put the jacket on to have to put on the skirt and finish putting on the jacket, the lower thread shifting from the upper hanger.

Warning : During installation, if the walls are of the "plasterboard" type, it will be necessary to take a distribution plate, so as not to damage your wall
