

SPECULUM CUSCO - SINGLE USE

The specula have been designed and improved to satisfy the most demanding gynecologists and practitioners.

Product description:

Thanks to the characteristics of Cusco specula and the wide choice of sizes, you will find complete satisfaction.

The advantages of Cusco single-use specula:

- Longer valves for easier examination
- Superior strength and quality
- 6 sizes for maximum adaptation to all patients
- More comfortable for the patient
- Available in mixed cardboard 4 sizes

Our single-use Cusco speculums are also available in Cusco Mix: a mix of the 4 main models (white, blue, red, green) in a very practical dispenser box, containing 25 units of each model.

Quality and traceability guaranteed.
