

REMOVABLE LEADED SLEEVE Removable leaded sleeve for x-ray protection

Product description:

Additional sleeves for approved aprons to protect armpits from the diagonal ionising rays the user may be exposed to.

Protection level depends on the model of apron.

Removable sleeves : These sleeves are adaptable to all types of leaded protective garments, being placed over the arm before putting on the apron. A Velcro fastening at the neck completes the adjustment. This model, being reversible, is suitable for both left and right arms.

Sewn sleeve (only on request): assembled only on our chasubles and jackets. Size, lining and outer covering to match the apron.
