

LUBRICATING GEL KY GEL

KY gel is the most reliable and well-known lubricating gel in the world.

Product description:

This lubricating gel, KY gel, is used to relieve vaginal dryness. KY gel is a neutral lubricating gel made from pure (distilled) water. KY gel lubricating gel is a sterile, neutral, non-irritating gel, and completely colorless and odorless. Thanks to its solubility in water, this KY gel lubricating gel is easy to wash. KY gel does not stain and does not contain grease.

Specification of KY gel lubricating gel:

- Against vaginal dryness
- Sterile gel
- Neutral, non-irritating gel
- Colorless and odorless
