

X-RAY TABLES WITH FIXED HEIGHT Tailor-made x-ray examination table

Product description:

We also offer custom-made fixed-height radiology tables. These are available in heights of 650, 700, 750 and 800 mm (specify when ordering).

Note: Please note that the areas of the headrest and the transition to the main surface, can only be x-rayed to a limited extent due to the hinges and the headrest adjustment mechanisms.

Options

- One-piece tabletop or
- Two-piece tabletop with headrest (length approx. 500 mm) positively adjustable by grid. As a standard, the headrest is located on the right-hand side. It can be built on the left-hand side if requested at ordering time.
- To provide a comfortable lying position for the patient, upholstered pads are recommended. They have a thickness of 40 mm, easily attach onto the upper frame of the table with hook and loop closures and are available with a width of 650 mm and 800 mm. The 21 available upholstery colours.
- Additional table sizes or lengths can be custom-built upon request. Please contact us for further information.

Mobility

For mobile use, the X-ray tables may be equipped with castors:

- Castors, Ø 75 mm
- Castors, Ø 125 mm

A set includes four castors, two of which with locking function. At time of ordering, please indicate the required total height of the table (including castors).

- Castors with central locking system for enhanced mobility and comfort of use.

All four double castors (Ø 125 mm) are connected by rods. A foot pedal to lock in position or release is located at the head and foot ends of the table (press once). At time of ordering, please indicate the required total height of the table, including castors (either 650-900 mm or 700-950 mm). Retrofitting is not possible.
