

**CARESTREAM TRIMAX TXE LASER FILMS  
TRIMAX TXE 4x125 SHEET LASER RADIOLOGY FILMS**

**Product description:**

TRIMAX TXE laser films do not use any chemicals during development. They are compatible with the TRIMAX TX44, TX55 and TX65 printers.

The high maximum optical density (D-max) of these films provides a wider greyscale for crisper, clearer, sharper images. The Carestream trays feature a unique technology that allows for quick tray changes in daylight. TRIMAX printers incorporate an internal mechanism that automatically closes the tray lid before the compartment is opened. An indicator light shows when the tray is ready to be ejected so that no film is obscured during replacement. D-max 3.6

- **AIQC image quality control technology**
- **Automatic tray detection**
- **More environmentally friendly**

The neutral tone of TXE films and the better uniformity of density in the emulsion enhance the fidelity of the renderings.

**TRIMAX TXE films are offered in trays of 125 films and available in 4 sizes:**

Reference	Format (cm)	Size (inches)	Packing
1735943	20 x 25	8x10"	4x125
1735950	25 x 30	10x12"	4x125
1735968	28 x 35	11x14"	4x125
1735984	35 x 43	14x17"	4x125

Size: 20 x 25 cm / 8 x 10", 25 x 30 cm / 10 x 12", 28 x 35 cm / 11 x 14", 35 x 43 cm / 14 x 17"  
Packaging: 4x125
